

## **Project Implementation:**

- Made a hand drawn sketch, to illustrate a visual representation of the layout.
- Made research about the foundation of FCCLA's program, goals, and morals.
- Gathered information, pictures, and photos to add to the page.
- Used basic HTML to create the structure of each page.
- Used CSS fundamentals, to change and target the style of each element of the website.
- Used Netlify to deploy and publish the website to the public.
